

# Modernizations Simplified

## ABOUT VRTL SPACE

VRTL Space is a small, disadvantaged technology company focused on advancing the business and mission capabilities of our government customers. Our team of experts integrate technical skills, subject matter expertise, and close collaboration with our customers to deliver solutions that help maximize their investment in technology, strengthen cyber security, and deliver measurable operational efficiencies. VRTL Space solutions and services help agencies solve some of their most difficult challenges from cloud, security, modernization, and transformation. We apply a unique approach to technology modernizations which will accelerate your organization's ability to deliver new mission capabilities rapidly and reliably. Our passion is to use technology to continuously deliver business and mission advantages once thought out of reach to your organization.

## CORE COMPETENCIES

### Cloud, Hybrid, & Multi-Cloud Consulting

Identifying and acting on the needs of the client and helping them leverage cloud computing for safer, more efficient operations.

### FedRAMP ATO Acceleration

Alignment of platform architecture to security controls, implementation of compensating and mitigating controls, and transitioning in-house team to DevSecOps.

### General Support System (GSS) Delivery

Creation of a preauthorized environment to deploy applications while inheriting the controls of that domain and accelerate delivery.

### Strategy and Management Consulting

Utilizing the technical skills, subject matter expertise, and cross-functional nature of the VRTL Space teams to offer sound business solutions.
